

THE TETRAHEDRON BOOK

4. Tie the string with two straws to the triangle. Make three knots.

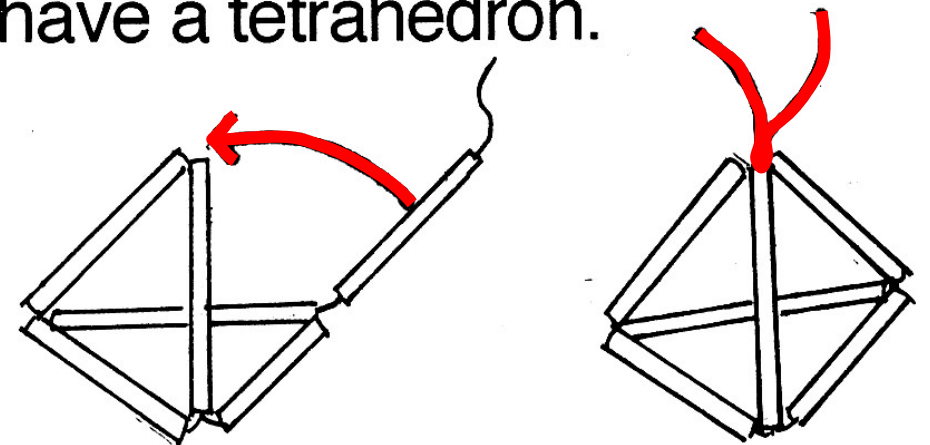

Now there are two triangles.

2. Tie the two strings together to form a triangle.

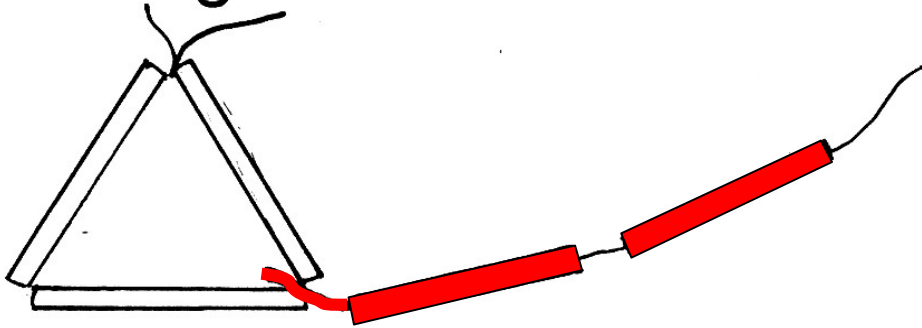

Make three knots.

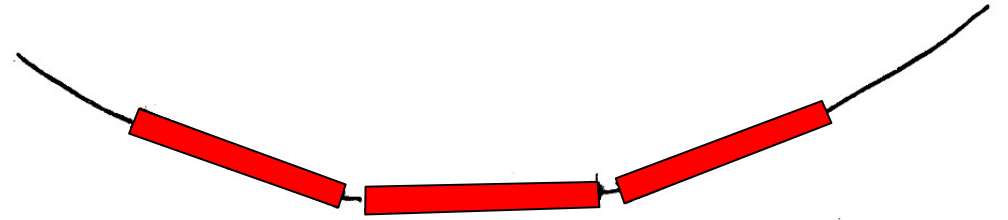

6. Tie the string with the straw to the top of the other triangle. Make three knots. You now have a tetrahedron.

3. Tie another string onto the triangle. Put two straw onto the string.

1. Put three straws on a string.

5. Tie the last string to the bottom of one of the triangles. Make three knots. Put one straw onto the string.
